

One Platform to Simplify Retail Security

Verkada uses actionable insights powered by computer vision technology to exceed the capabilities of traditional retail monitoring systems. Designed with simplicity in mind, Verkada integrates intelligent devices with an intuitive software platform to add security without complexity.

Reduce theft and overhead costs

Simplify security management

Scale retail operations

Key benefits

Reduce shrinkage around-the-clock

Catch repeat offenders with Vehicle and Person of Interest alerts. Respond immediately with 24/7 virtual guards.

Automate response with panic button

Protect employees with panic buttons that can pull up live video footage, notify on-site security, or call emergency services with a single press.

Secure storefronts and storerooms

Set door schedules around store hours of operation and provide tiered access permissions for employees and contractors.

Monitor stores from anywhere

Find, save and share footage on-the-go. Plus, share live camera feeds with local authorities in seconds.

Reduce alarm fees

Eliminate false alarms with built-in video verification and ensure priority emergency response for confirmed threats.

Improve business operations

Use data-driven insights like Occupancy Trends to optimize staffing and evaluate the performance of promotional activities.

Customer stories

Adams Beverages

"For organizations looking to scale, Verkada is great for streamlining everything through one solution, versus having a hodgepodge of different technologies that don't speak to each other."

Christopher Koch, Director of Information Systems

Heinemann

"Verkada gave us immediate ROI and resulted in a 30% cost reduction. We eliminated our existing servers and NVR devices while gaining higher levels of storage retention without impacting our WAN bandwidth."

Federico Abis, Information Technology Manager

Sook Retail

"I have a complete picture of what's going on across every single one of our sites, with actionable insights in real-time. Regular feature and security updates mean that the technology I buy from Verkada today will always be ahead of the curve."

Dan Burnham,

Chief Technology Officer

24/7 technical support
